

Southface receives the EEBA Legacy Award

The growth of the sustainable community over the past 25 years has contributed to the advanced green technologies and forward-thinking building science professionals and organizations we have today. To honor those organizations that have made significant contributions promoting and developing building science and new construction, The Energy & Environmental Building Association (EEBA) honored 25 organizations with the Legacy Award on October 10, 2007 at their 25th annual conference and expo.

Of the 25 organizations presented the Legacy Award, Southface is proud to have been one of them, along with the U.S. Department of Energy's Building America Program, EPA's Energy Star program and others.

Discovery Network selects Renewal Construction

The Discovery Network cameras will follow the remodeling process of EarthCraft House builder member, Renewal Construction, as they began extensive renovation of a one-story, 940-square-foot bungalow home located in Decatur. Early next year, Discovery Network will launch a new channel, *Planet Green* on which the remodeled green home will debut.

Upon completion, the home will double in square footage and height, while only adding 150 square feet to its existing footprint. The planned green

At the October 'Greening Higher Education' Sustainable Atlanta Roundtable, guests speakers shared their campuses greening initiatives: Ciannat Howett, Emory University; Tom Adams, University of Georgia; Peggy Barlett, Emory University and Howard Wertheimer, Georgia Tech University.

features include a geothermal heat pump, a sealed crawlspace, a tankless water heater, structural insulated panels, low-VOC paints and three cisterns for rainwater harvesting.

While pursuing EarthCraft House™ certification, the home will also receive Southface Home Energy Ratings. The homeowners, Michelle Frost and K.C. Boyce are exploring ENERGY STAR certification as well.

Southface Engineer Adds Qualification

David Wasserman

Southface would like to congratulate senior engineer, David Wasserman, as the newest certified RESNET Quality Assurance Designee (QAD).

David provides energy modeling expertise for residential and commercial buildings, in addition to designing residential duct systems. David is now accredited to conduct HERS trainings. Southface is honored to have six staff members who have mastered this rigorous national certification program.

Southface Hellos & Goodbyes

Southface welcomes new faces
Interns:

- ✎ Ankith Kamaraju, Andrea Moore, Brad Painting, Jared White

Staff:

- ✎ John Bracey, *CGBS Technical Project Manager*
- ✎ Ted Cater, *EarthCraft House Manager of Development & Communications*
- ✎ Seth Coan, *CGBS Technical Project Manager*
- ✎ Stephanie Connell, *Project Manager of Meetings & Events*
- ✎ Christina Corley, *Sustainable Developments Associate*
- ✎ Denise Grimm, *CGBS Technical Associate*
- ✎ Tyler Jones, *EarthCraft House Inspector*
- ✎ Alyce Thompson, *Policy Fellow*
- ✎ Eilaina Walker, *EarthCraft House Database Manager*

Southface offers best wishes to departing staff and interns:

- ✎ Alexis Anzo, Abe Kruger, Wes Riley, Brian Sharkey
